Worksheet #4

Apple Basket Word Problem

Learning goal: Students will be able to solve the story sums implementing the concept of subtraction.

Problem #1: There were 10 apples in a basket. Mark ate 3 apples. How many apples are left?

Problem #2: There were 14 apples in a basket. Silk ate 4 apples. How many apples are left?

Problem #3: There were 12 apples in a basket. Samar ate 2 apples. How many apples are left?

Problem #4: There were 18 apples in a basket. Siya ate 5 apples. How many apples are left?

Problem #5: There were 10 apples in a basket. Akshara ate 1 apples. How many apples are left?

Problem #6: There were 12 apples in a basket. Pratiksha ate 4 apples. How many apples are left?

Worksheet #4 (Answers)

Apple Basket Word Problem

Learning goal: Students will be able to solve the story sums implementing the concept of subtraction.

Problem #1: There were 10 apples in a basket. Mark ate 3 apples. How many apples are left?

Solution:

Number of apples in the basket = 10

Number of apples eaten = 3

Apples left = 10 – 3 = 7

Answer: There are 7 apples left.

Problem #2: There were 14 apples in a basket. Silk ate 4 apples. How many apples are left?

Solution:

Number of apples in the basket = 14

Number of apples eaten = 4

Apples left = 14 – 4 = 10

Answer: There are 10 apples left.

Problem #3: There were 12 apples in a basket. Samar ate 2 apples. How many apples are left?

Solution:

Number of apples in the basket = 12

Number of apples eaten = 2

Apples left = 12 – 2 = 10

Answer: There are 10 apples left.

Problem #4: There were 18 apples in a basket. Siya ate 5 apples. How many apples are left?

Solution:

Number of apples in the basket = 18

Number of apples eaten = 5

Apples left = 18 – 5 = 13

Answer: There are 13 apples left.

Problem #5: There were 10 apples in a basket. Akshara ate 1 apples. How many apples are left?

Solution:

Number of apples in the basket = 10

Number of apples eaten = 1

Apples left = 10 – 1 = 9

Answer: There are 9 apples left.

Problem #6: There were 12 apples in a basket. Pratiksha ate 4 apples. How many apples are left?

Solution:

Number of apples in the basket = 12

Number of apples eaten = 4

Apples left = 12 – 4 = 8

Answer: There are 8 apples left.
