Worksheet #4(Answers)

**SUBTRACTING ANGLES**

Learning goal: Students will be able to determine the difference between two angles.

Instruction: Find the difference of measures of angles

Find the difference between the angles:

$$\text{Ans: } 105^\circ - 90^\circ = 15^\circ$$

Find the difference between the angles:

$$\text{Ans: } 125^\circ - 90^\circ = 35^\circ$$

Find the difference between the angles:

$$\text{Ans: } 129^\circ - 90^\circ = 39^\circ$$

Find the difference between the angles:

$$\text{Ans: } 114^\circ - 90^\circ = 24^\circ$$

Find the difference between the angles:

$$\text{Ans: } 152^\circ - 90^\circ = 62^\circ$$

Find the difference between the angles:

$$\text{Ans: } 163^\circ - 90^\circ = 73^\circ$$
