Worksheet #2 (Answers)

# Chocolate Party Word Problem

**Learning goal:** Students will be able to read and comprehend the story sums and apply the concept of addition to solve them correctly.

**Problem #1:** Rohan has 8 chocolates. His sister gives him 4 more. How many chocolates does Rohan have?

Solution:

Rohan has 8 chocolates.

His sister gives him 4 more.

Total number of chocolates = 8 + 4 = 12

Rohan has 12 chocolates.

**Problem #2:** Manav has 6 chocolates. His sister gives him 9 more. How many chocolates does Manav have?

Solution:

Manav has 6 chocolates.

His sister gives him 9 more.

Total number of chocolates = 6+9=15

Manav has 15 chocolates.

**Problem #3:** Aryan has 8 chocolates. His sister gives him 8 more. How many chocolates does Aryan have?

Solution:

Aryan has 8 chocolates.

His sister gives him 4 more.

Total number of chocolates = 8 + 4 = 12

Aryan has 12 chocolates.

**Problem #4:** Sam has 7 chocolates. His sister gives him 9 more. How many chocolates does Sam have?

Solution:

Sam has 8 chocolates.

His sister gives him 4 more.

Total number of chocolates = 8 + 4 = 12

Sam has 12 chocolates.

**Problem #5:** Rishit has 5 chocolates. His sister gives him 7 more. How many chocolates does Rishit have?

Solution:

Rishit has 5 chocolates.

His sister gives him 7 more.

Total number of chocolates = 5 + 7 = 12

Rishit has 12 chocolates.

**Problem #6:** Jiyan has 10 chocolates. His sister gives him 6 more. How many chocolates does Jiyan have?

Solution:

Jiyan has 8 chocolates.

His sister gives him 4 more.

Total number of chocolates = 8 + 4 = 12

Jiyan has 12 chocolates.
